

**IFRIC Interpretation 13**

# Customer Loyalty Programmes

IFRIC 13 *Customer Loyalty Programmes* was developed by the International Financial Reporting Interpretations Committee and issued by the International Accounting Standards Board in June 2007.

The following Interpretation refers to IFRIC 13:

- IFRIC 15 *Agreements for the Construction of Real Estate* (issued July 2008).

BASIS FOR CONCLUSIONS

IFRIC Interpretation 13 *Customer Loyalty Programmes* (IFRIC 13) is set out in paragraphs 1–11 and the Appendix. IFRIC 13 is accompanied by illustrative examples and a Basis for Conclusions. The scope and authority of Interpretations are set out in paragraphs 2 and 7–17 of the *Preface to International Financial Reporting Standards*.

## **IFRIC Interpretation 13**

### ***Customer Loyalty Programmes***

#### **References**

---

- IAS 8 *Accounting Policies, Changes in Accounting Estimates and Errors*
- IAS 18 *Revenue*
- IAS 37 *Provisions, Contingent Liabilities and Contingent Assets*

#### **Background**

---

- 1 Customer loyalty programmes are used by entities to provide customers with incentives to buy their goods or services. If a customer buys goods or services, the entity grants the customer award credits (often described as 'points'). The customer can redeem the award credits for awards such as free or discounted goods or services.
- 2 The programmes operate in a variety of ways. Customers may be required to accumulate a specified minimum number or value of award credits before they are able to redeem them. Award credits may be linked to individual purchases or groups of purchases, or to continued custom over a specified period. The entity may operate the customer loyalty programme itself or participate in a programme operated by a third party. The awards offered may include goods or services supplied by the entity itself and/or rights to claim goods or services from a third party.

#### **Scope**

---

- 3 This Interpretation applies to customer loyalty award credits that:
  - (a) an entity grants to its customers as part of a sales transaction, ie a sale of goods, rendering of services or use by a customer of entity assets; and
  - (b) subject to meeting any further qualifying conditions, the customers can redeem in the future for free or discounted goods or services.

The Interpretation addresses accounting by the entity that grants award credits to its customers.

#### **Issues**

---

- 4 The issues addressed in this Interpretation are:
  - (a) whether the entity's obligation to provide free or discounted goods or services ('awards') in the future should be recognised and measured by:
    - (i) allocating some of the consideration received or receivable from the sales transaction to the award credits and deferring the recognition of revenue (applying paragraph 13 of IAS 18); or

- (ii) providing for the estimated future costs of supplying the awards (applying paragraph 19 of IAS 18); and
- (b) if consideration is allocated to the award credits:
  - (i) how much should be allocated to them;
  - (ii) when revenue should be recognised; and
  - (iii) if a third party supplies the awards, how revenue should be measured.

## Consensus

---

- 5 An entity shall apply paragraph 13 of IAS 18 and account for award credits as a separately identifiable component of the sales transaction(s) in which they are granted (the 'initial sale'). The fair value of the consideration received or receivable in respect of the initial sale shall be allocated between the award credits and the other components of the sale.
- 6 The consideration allocated to the award credits shall be measured by reference to their fair value, ie the amount for which the award credits could be sold separately.
- 7 If the entity supplies the awards itself, it shall recognise the consideration allocated to award credits as revenue when award credits are redeemed and it fulfils its obligations to supply awards. The amount of revenue recognised shall be based on the number of award credits that have been redeemed in exchange for awards, relative to the total number expected to be redeemed.
- 8 If a third party supplies the awards, the entity shall assess whether it is collecting the consideration allocated to the award credits on its own account (ie as the principal in the transaction) or on behalf of the third party (ie as an agent for the third party).
  - (a) If the entity is collecting the consideration on behalf of the third party, it shall:
    - (i) measure its revenue as the net amount retained on its own account, ie the difference between the consideration allocated to the award credits and the amount payable to the third party for supplying the awards; and
    - (ii) recognise this net amount as revenue when the third party becomes obliged to supply the awards and entitled to receive consideration for doing so. These events may occur as soon as the award credits are granted. Alternatively, if the customer can choose to claim awards from either the entity or a third party, these events may occur only when the customer chooses to claim awards from the third party.
  - (b) If the entity is collecting the consideration on its own account, it shall measure its revenue as the gross consideration allocated to the award credits and recognise the revenue when it fulfils its obligations in respect of the awards.

## IFRIC 13

- 9 If at any time the unavoidable costs of meeting the obligations to supply the awards are expected to exceed the consideration received and receivable for them (ie the consideration allocated to the award credits at the time of the initial sale that has not yet been recognised as revenue plus any further consideration receivable when the customer redeems the award credits), the entity has onerous contracts. A liability shall be recognised for the excess in accordance with IAS 37. The need to recognise such a liability could arise if the expected costs of supplying awards increase, for example if the entity revises its expectations about the number of award credits that will be redeemed.

### **Effective date and transition**

---

- 10 An entity shall apply this Interpretation for annual periods beginning on or after 1 July 2008. Earlier application is permitted. If an entity applies the Interpretation for a period beginning before 1 July 2008, it shall disclose that fact.
- 11 Changes in accounting policy shall be accounted for in accordance with IAS 8.

## Appendix

### Application guidance

*This appendix is an integral part of the Interpretation.*

#### Measuring the fair value of award credits

- AG1 Paragraph 6 of the consensus requires the consideration allocated to award credits to be measured by reference to their fair value, ie the amount for which the award credits could be sold separately. If the fair value is not directly observable, it must be estimated.
- AG2 An entity may estimate the fair value of award credits by reference to the fair value of the awards for which they could be redeemed. The fair value of these awards would be reduced to take into account:
- (a) the fair value of awards that would be offered to customers who have not earned award credits from an initial sale; and
  - (b) the proportion of award credits that are not expected to be redeemed by customers.

If customers can choose from a range of different awards, the fair value of the award credits will reflect the fair values of the range of available awards, weighted in proportion to the frequency with which each award is expected to be selected.

- AG3 In some circumstances, other estimation techniques may be available. For example, if a third party will supply the awards and the entity pays the third party for each award credit it grants, it could estimate the fair value of the award credits by reference to the amount it pays the third party, adding a reasonable profit margin. Judgement is required to select and apply the estimation technique that satisfies the requirements of paragraph 6 of the consensus and is most appropriate in the circumstances.
